

LOKUMA

BOOTH #338500

OKUMA AT IMTS 2026

Okuma invites you to experience the future of manufacturing. Explore 11 machines on display, including four Americas debuts, many paired with automation designed to unlock new levels of precision, efficiency, and reliability.

EXPLORE OUR TECHNOLOGY LINEUP:

New Okuma machines and factory automation are highlighted in blue.

LATHES & MULTITASKING MACHINES

LB2000 EX III MYW with [ORL \(Okuma Robot Loader\) Plus](#)

LB3000 EX III with [Modular OGL \(Okuma Gantry Loader\)](#)

LT2000 EX 3T3MY with the [NC Unloader and Barfeeder](#)

[MULTUS U1000](#)

MACHINING CENTERS

[GENOS M4000H-e](#) with [Internal Two-Station APC \(Automatic Pallet Changer\)](#)

[MB-100V](#)

[MB-5000HII](#) with [Tower Pallet Changer](#)

[MS-320H](#) with [ORL-D II](#)

[MU-8000V \(5-Axis\)](#) with [Flexible Automation](#)

[GENOS M460V-5AX \(5-Axis\)](#) with [ORL-MC](#) and [Modular ATC \(Automatic Tool Changer\)](#)

GRINDERS

[GA26W](#) with [ORL Plus](#)

Note: the Okuma High-Pressure Coolant System (OHP) will also be featured at the show.

OPEN POSSIBILITIES AND ACHIEVE THE IMPOSSIBLE

DISCOVER THE OSP-P500 DIFFERENCE

The Power to Create is Within Your Control

What does the Okuma OSP-P500 have? We'll start with double the performance and power. And high-speed machining functions, collision avoidance, data collection, and multi-axis performance. It's the CNC control you've been waiting for, the CNC control that everyone's talking about, the CNC control that puts the power to create in your hands.

VIRTUAL REALITY EXPERIENCE

Step Into the World of Okuma

Engage with one of our virtual reality headsets and step directly into a world of Okuma machines, all at your fingertips. Explore the ins and outs of our machines right in front of your eyes. Participants will be able to view a variety of Okuma machines and technologies, including popular products beyond what's on the show floor. Be sure to stop by to explore what we have to offer.

OUR BRAND NEW GLOBAL REPAIR CENTER

Enhanced Customer Service Capabilities

The new Okuma Global Repair Center redefines aftermarket support, delivering faster, smarter service to customers worldwide. Located on our Charlotte, North Carolina campus, the 35,000-square-foot facility brings mechanical and electrical repair, component exchange, upgrades, and legacy part fabrication together in a new, state-of-the-art facility that is four times larger than previous dedicated space. Backed by advanced inspection, testing, CNC simulation, and thousands of ready-to-ship parts, it maximizes uptime, safeguards your investment, and reinforces our promise to Passionately Pursue a Customer for Life.

AFTER-MARKET SERVICE AND SUPPORT

Meet the Team at IMTS

Our service offerings support maximum Okuma machine tool performance and help create an optimal customer experience. No matter what it takes, or when you need assistance, our best-in-class distributor network, programs, experts, and certified technicians stop at nothing to help you reach your full manufacturing potential.

SPOTLIGHT DEMOS

What began as over 600 lbs of aluminum has become a beautiful Bald Eagle, cut for around 100 hours entirely by an Okuma [MU-8000V](#), demonstrating the precision and strength of this machine. The Okuma [GENOS M4000H-e](#) will be cutting *two* parts at IMTS 2026: Okuma trailer hitch covers along with Okuma pull-stud wrenches. Come by and see this powerful machine in action!
